

# Data protection documentation by experts. But easy to use.

A summary for  
your meeting

Everything we need to have. And never more than necessary.  
The focal point is maximum ease of use.

5 ½ reasons why this is the best solution for us to tackle  
Art. 30 GDPRs challenges properly and with ease.

- 1 Created by data protection experts.** The provider has over 15 years experience in data protection. This prior knowledge makes the life of every user easier because this experience has been incorporated into the tool's content.
- 2 Legally compliant so you can relax during your audit.** The software guides you through the questions: you cannot forget anything and you won't do more work than necessary.
- 3 Focus on the essentials.** Using sophisticated filter possibilities, each user only sees the content they need at the moment: no one needs concern themselves with topics that are not important to them.
- 4 Requires very little training.** The software is so simple and self-explanatory that there is practically no training required. And if you've been busy with other things the past few weeks you will still find be able to pick up right where you left off.
- 5 Corporate groups will save a lot of time.** Everything is documented once at HQ. Subsidiaries need only document deviations from this information.
- 6 Data protection that's fun.** The mascot MrFOX is a great motivator and will help you with the content.

And what will all this cost? No company is the same. Here are two examples.  
All we have to do is drop them a line, and they quickly will make us an offer.

## Single company

With 1 DPO and 3 other users  
One-time license fee 700€  
Monthly help and support 50€

## Corporate group with up to 5 companies

With 1 DPO and 15 other users  
One-time license fee 1.600€  
Monthly help and support 200€
